**TITLE:** Because ME Peace = WE Peace -10,000 Tapping FREE Livestream

Hi [First name],

I know cool science facts light your fire (me too). Well, check this out...

In 1993, it was scientifically proven that when we feel LOVE, and other positive emotions like self-forgiveness, the whole world feels more stable and peaceful.

Did you know that recent research shows our thoughts and feelings actually affect our heart's magnetic field?

And that Earth's magnetic field, in turn, affects everyone else in the environment?

**It's called the Maharishi Effect:** when a group with a size equal to the square root of 1% of a population meditate or elevate their energy together, it has a measurable and

## Email & Swipe Copy for 10,000 Tapping Affiliates

positive influence on the quality of life of that population, dropping the rate of violence and increasing peace and well being.

The Maharishi Effect states that radiating peace into the planetary field environment increases the positive energy, making it easier for the planet and its inhabitants to shift and transmute accumulated negative energy.

10,000 is a little more than the square root of 1% of the world's population.

### 10,000 TAPPING - A FREE ONLINE 7-DAY EFT EVENT

This 10,000 Tapping event is a way to utilize the Maharishi Effect. So, Master EFT Practitioner Sonya Sophia and Unify created a synchronized healing event to help us, as a collective, literally Tap into the healing power of LOVE with our own 2 hands.

As we use EFT, will feel ourselves and our world recovering from heartbreak, stress, depression, anxiety, trauma, and cultural conditioning.

Together, we can create REAL positive change as we Tap in a global, collective movement that will ripple out far beyond what we ever imagined possible.

**TITLE:** 6 major reasons to try EFT Tapping now

Hi [First name],

I don't know if I've told you, but one of my favorite self-care tools is EFT Tapping.

[Insert brief story of your first time Tapping or what EFT means to you].

And I just found out that Sonya Sophia, Master EFT Practitioner, has created something truly special and unique for our planet—it's going to shift our whole world!

First, let me explain what EFT is.

EFT (Emotional Freedom Techniques), also known as Tapping, is a meridian-based, self-healing technique that helps you physically process and release stored stress from your nervous system.

EVERY TIME YOU TAP, IT BRINGS POWER, PEACE, & LOVE TO YOU & THE WORLD.

### How EFT Tapping can help you:

1. Tapping creates the chemistry of peace and happiness in your body.
2. Tapping helps you create better relationships with everyone, including yourself.
3. Tapping makes oxytocin (the love hormone) which cancels out cortisol (the stress hormone) and improves your health.
4. Feeling calmer and happier helps you work better, which makes you more money.
5. Tapping helps you bring the vision for your life into reality.

## Email & Swipe Copy for 10,000 Tapping Affiliates

6. Tapping helps keeps you sane, stable, and moving forward during tough times.

**Tapping is tried and true—even scientists say so.**

Think of EFT Tapping as natural emotional hygiene—it detoxes both brain and body from accumulated stress.

Tapping helps you reset your mind and recover your energy and focus *naturally*.

25 years of research at 20 universities, including Harvard Medical, have proven EFT's ability to release pain from trauma and increase brain function by pumping up oxytocin, serotonin, and dopamine—the neurotransmitters that help us stay healthy, happy, emotionally resilient, and loving.

In 2018, the Veterans Administration gave EFT the green light to treat PTSD.

All of this means ... Tapping allows your body to *quickly* and permanently clear stored memories, emotional baggage, and toxic thoughts.

More than 100,000s of people have begun using EFT Tapping including entrepreneurs, teachers, students, and researchers.

Even celebrities like Whoopi Goldberg and Oprah, and Gabrielle Bernstein have used EFT to increase the quality of their lives.

**EFT Tapping is the tool for the times!**

Universities have run 100s of studies that prove EFT Tapping significantly alters DNA expression, changes blood chemistry, lowers cortisol (the stress hormone), increases brain function, and changes lives for the better!

In short, EFT Tapping rewires the brain. It gives you an experience of being in a shifted state—feeling uplifted, aligned, open, clear, and focused.

## Email & Swipe Copy for 10,000 Tapping Affiliates

Tapping naturally creates literal changes in the brain and body and offers what Jamie Wheal's bestseller *Stealing Fire* calls "non-ordinary states of consciousness."

This flow state opens the door for rapid learning, easier manifestation, and personal and professional up-leveling.
